

Educational Workshop

**Rapid Whole Genome Sequencing
for acutely unwell babies and children with a
likely monogenic disorder (R14 service)**

24th – 25th May 2023
Sandy Park Conference Centre, Exeter

**Are you a clinician that refers patients for rapid whole
genome sequencing (R14 Service)?**

**Would you like to know more about how the R14 test can
help with your patients' clinical management?**

During this two-day workshop hosted by the SW GLH team you will:

- develop your knowledge of whole genome sequencing through a range of case-based learning workshops and multidisciplinary presentations
- Discuss how to identify eligible patients
- Learn more about the laboratory process from sample receipt to generation of diagnostic genomic reports and explore the principles that underline interpretation of genomic variants

Application deadline Friday 24th February 2023

Attendance is funded but places are limited. Funding will include overnight accommodation for attendees outside of Exeter. The workshop is aimed primarily at clinicians in non-Clinical Genetics specialties (e.g. paediatricians, neonatologists, paediatric neurologists)

All applications will be triaged and you will be advised of the decision on Wednesday 1st March 2023
